- Professor Henry is an extremely personable and knowledgeable professor who you can tell actually cares about her students and is willing to help them achieve understanding and academic success. Throughout the semester she has made class very interactive and been accessible through her office hours and by email . Although I am not a fan of 8 am classes she has made going to class worth it!
- Awesome teacher, i'd highly recommend her to others.
- very well prepared and laid out the content very well for students. I was definitely nervous coming in but I couldn't have picked a better instructor. she was, amazing!
- She is an excellent instructor! I am so glad she taught my class.
- She was easy to get a hold of outside of class to help with work. She made objectives and all aspects of the course crystal clear. She was easy to understand and took time to explain difficult material and made sure that the class understood it before moving on.
- Very good instructor and cares alot about the class.
- She was really great I loved her!
- Ms.Henry is an amazing instructor. She was very accessible before, during, and after class. Lessons were clear and thought out as well as the syllabus.
- Emma Kate Henry was an amazing instructor! I hope to have her again!
- Professor Henry was extremely communicative throughout the entire course and was unbelievably helpful in helping me to catch up when I was sick!
- Ms. Henry is the absolute best- she made time for me even outside of office hours and understood that i was struggling in college and was always there for me.
- She was amazing and so nice and so helpful!
- The class structure is a very good one with constant reviewing which is needed.
- I have loved having her as a teacher, she was amazing and I learned so much in this course.
- Did a great job conveying the concepts. All questions were answered well.
- i LOVED taking econ with Emma Henry. She did an amazing job providing real world examples to help students understand the material. She provided excellent study materials to take the test. She made it easy to get a good grade and was very easy to understand. She took things slow, reviewed when the class needed it, and even provided bonus points for the test. I 10/10 would recommend taking this class with this professor again!!
- I have absolutely loved having Emma Henry as my Professor. She is the best and I am so happy I got to have her for my first semester of college. She is just what I needed. I did amazing in this course and all thanks to her! I got to connect with her on a personal level always talking to her and she knew my name when I asked questions in class. She is very approachable and I wish I could have her in the future. I know other people in EC 110 sections that did not have Professor Henry and they did awful on tests. I thought how could they, Professor Henry does an amazing job in class at explaining everything which makes me do well on exams. I wish her the best in her career and I hope to see her around!
- Emma Henry is one of the best instructors I have ever had! She is so kind and always willing to help. Her teaching methods are super effective and are what helped me succeed most in this course.
- Emma is one of the best professors or teachers I've ever had. She is great at explaining content in an easily understandable way.
- She is great, definitely recommend taking this class with her.
- One of my favorite professors, very effective communicator and gives students all the tools they need in order to succeed.
- Emma Henry is a very good instructor and is very personable and keeps me awake at 8am and keeps me active in class. She always responds to emails is very nice when meeting with her. She helps explain concepts very well and is an amazing teacher. I would recommend and 100% would take again.
- Coming from a senior in mechanical engineering, I don't always understand the line of thinking that comes with microeconomics right away, but Dr. Henry has been absolutely fantastic, one of my favorite professors in my entire career at the University of Alabama. She made the content extremely understandable, and always came prepared with fantastic real-world examples of the content to help remember it by. It was very evident that Dr. Henry greatly cared about her students and their success, and I am so very grateful for the opportunity to have Dr. Henry as my professor, and would recommend her to anyone that needs to take any economics class. She knows her material, and is fantastic at conveying it. Again, one of my favorite professors at the entire capstone.
- Thank You!
- One of the best professors I have had. Was super communicative and always asking for input from students. Always tried to make contents of the class applicable. Overall super nice.
- She was a great professor, I had no issues what so ever.
- Loved her. Very special teacher.
- I have absolutely loved being in her class! One of my nicest and easiest to talk to professors!
- She was one of the best instructors I have had hear in my three yers at UA. Excellent course!
- She did a great job of relating the subjects to real life, which made things a lot easier to understand. Extremely obvious that she cares about her students doing well. One of my favorite professors.
- She cares for her students and is intentional with our education!
- Though it was hard for myself to go to an 8:00AM Economics class, Professor Henry always made it an engaging and thorough class even through the morning grogginess.
- Sometimes she would teach the subject so well that we wouldn't have any questions. Then she'd say we have to ask questions. So we all just sat in silence.
- I absolutely loved this class this semester, and learned so much! Professor Henry did a fabulous job in preparing me for every assignment/exam, her teaching was very clear, and she made hard topics easier to understand.
- Nothing besides the fact that she is great!!! She provides a multitude of real world example, and projects the class material in a way that students receive well. As my peers who have other professors for microeconomics complain that they never understand the material, it almost baffles me because of how clearly Professor Henry conducts her lessons. She makes herself significantly available to students, and is genuinely happy to spend the extra time to help whenever it is needed. Professor Henry is a true 10/10!
- Emma Henry was an excellent professor and I really enjoyed her class but also enjoyed the fact that she truly cared about her students inside and outside of class. She really was a listening ear and she was very approachable as well as very open to help you with anything.
- She's an amazing instructor and cares about how we do in her class. She wants us to succeed and gives us everything we need to succeed.
- Honestly could not think of any other instructor who could have engaged as well in class.
- She was a great instructor.
- She was wonderful! She truly cares about how her students are doing in the class and makes a point to remember everyone's name! She was super sweet and attentive. I would recommend her to anyone! She made my first semester as a freshman a little more manageable because of her compassion!
- Great instructor and really kind lady.

- nope
- Emma Henry was an amazing economics teacher and helped me understand the material with ease. She was always prepared with handmade notes for each class lecture. She was effective in prepping us with the material to pass the class and knew how to help us review. Her assignments helped me commit the content to memory. I would recommend her as a professor to anyone.
- Professor Henry is truly exceptional and the only reason I didn't medically withdraw this semester i had a lot of personal issues this semester. She is patient, kind, and always willing to explain concepts as many times as needed until they click. Professor Henry goes above and beyond to ensure her students succeed, i previously failed before but now I'm scoring amazing grades on exams and I'm incredibly grateful to have had her as my professor.
- Emma Henry did a phenomenal job instructing this course. She makes concepts engaging and easy to understand. The way she structured the course was effective and made the content truly fun to learn.
- no
- Loved how she would take the practical aspects of every day things we encounter in the market and relate that back to the economic theories we were covering.
- She is one of the best instructors/teachers/professors I have ever had. She prepares students for success without making the course too easy. She is not one to give free 100s or anything like that, but rather thoroughly teaches the material and then thoroughly communicates what is expected of students on assessments. While class was never mandatory to attend, she emphasized that she will make coming to class worth it, and she definitely delivered. Every class was packed with useful material without busy work, rambling, or any beating around the bush. She even often offered extra credit to students who showed up to class on days with low attendance to show her appreciation and encourage students to keep showing up for themselves. You can tell she has a passion for teaching economics and that she truly cares about each student individually and their success. I could never say enough to express what a genuinely amazing teacher she is to the core!
- Professor Henry is an excellent professor. She goes above and beyond to make sure her students are progressing and truly learning the concepts of the class.
- One of the best professors I've had here! She has actually made me consider pursue a degree in economics!
- Genuinely the best instructor I've ever had, not even limited to college. Makes a very boring subject very interesting, works hard to make sure the subject matter is relatable so it can be understood, makes an effort to get to know all of the students, despite how big the class is. She is always willing to meet to help me understand something better, and it's very clear how much she truly cares about all of her students. Fantastic professor, invaluable.
- She gave me extra time to complete homework when I was very sick and most teachers didn't and I appreciated that very much
- I'm sorry I'm not ever there a lot. I work most mornings and i didn't do a great job aligning my school schedule with my work schedule when registering

- A tough course made bearable with a great teacher.
- This class was very well laid out. I had an amazing time taking this class, there is not reason someone should not receive an A in this class.
- The best professor in economics based off of other feedback about other sections, any student would be lucky to have her as a professor!

- The content is not challenging in the slightest, so I do not think the academic standard for the course could be very high. That being said if I understand that question appropriately.
- The structure of the course is very well organized and Professor Henry did a great job of dividing all the content.
- I feel this course has really taught me useful information that I will use going forward in my academic career here at UA!
- Great course!
- The course jumps around but stays on tasks it was personally sometimes hard to understand but emma henry helped me understand great teacher!!!!
- Great structure to the class.
- Would recommend this professor for this class!
- This was my second time taking this course, she made it a lot easier my second time around.
- Very straightforward. people said it involved algebra. It does not really. Almost Purely Conceptual.
